RAILWAY'S REPLACEMENT HANDLE MERCHANDISERS

SR-10

LR-10

AR-10

Railway's new HANDLE MERCHANDISERS are the Dealer's Silent Partner in Replacement Handle Sales. Each MERCHANDISER contains the most popular Short Hickory, Long Hickory and Ash Handle patterns, AND Display Rack. All three of these MERCHANDISER Racks are the same size, 5' x 21", and fit standard store peg-boards. Each MERCHANDISER Rack has a header card which identifies the handles contained, and their application. The handles in each MERCHANDISER are imprinted with the corresponding catalog number to remove all chance of error in the Dealer's store. Each handle has a factory driven staple for racking, and wedges where applicable. HICKORY HANDLES are offered in each of the most popular grades, and ASH HANDLES are offered in our No. 1 Grade. The contents of each MERCHANDISER are listed below.
